ServSafe Training

ServSafe training programs have been recognized and accepted by more federal, state and local jurisdictions than any other food safety education and training program for nearly 40 years.

ServSafe was developed by the National Restaurant Association, and is a respected training and education program throughout the State of Michigan.

The Michigan Food Law requires all food service establishments to have at least one manager certified in food safety. Managers with the ServSafe Food Protection Manager Certification meet this requirement.

Manager Certification

After attending the course and passing an exam with score of 75% or above, you will receive a certificate verifying that you are a certified ServSafe Food Protection Manager.

Language Options

Our ServSafe classes are taught in English. We offer ServSafe Course exams written in English, Spanish, Chinese and Korean. Please let us know if you will be taking an exam other than English.
