Saginaw County Health Department to Begin Vaccinating 12-15 Year Olds

(SAGINAW) – The Saginaw County Health Department will begin offering the Pfizer vaccine to anyone 12 years of age and older who lives or works in Saginaw County beginning Tuesday, May 18, at its new indoor location at the former Sears Department Store at Fashion Square Mall.

Walk-ins are welcome every Tuesday 9a-4p, and every Wednesday 3:30p-6:30p, now through June 30 at this location. Minors must be accompanied by a parent or guardian.

Residents are encouraged to follow the Saginaw County Health Department on Facebook for other pop-up vaccination clinics at Sears and other locations, including one this Saturday, May 15, at Sears, for the Johnson & Johnson one-dose vaccine (must be 18+).

Parents weighing the decision on whether or not to vaccinate their children 12-15 years of age are encouraged to speak with their primary care providers and to watch the recording of yesterday's Facebook Live event with Chris Harrington, MPH, health officer, and Delicia Pruitt, MD, medical director.
