APPLICATION FOR FOOD SERVICE
SITE AUDIT - LIMITED PLAN REVIEW - REQUESTED INSPECTION

(Site Audit/Limited Plan Review) Michigan's Food Law, Act 92, P.A. 2000, requires you to submit plans whenever a food service establishment is constructed, remodeled or altered. This applies to changes in existing food service establishments as well as new construction. Plans must be approved *BEFORE* construction/remodeling begins. Act 92 also requires that, upon change of ownership, an existing facility shall meet the current requirements of the Food Law before commencing operation. A site audit consists of an inspection performed by a representative of the Health Department and results in a comprehensive list of *all* corrections required.
